

With just a few weeks to go until our season opens, tents are going up and menus rehearsed while the prized dogs watch the commotion curiously from the shade. It's been an exciting summer filled with building, recruiting and scouting new hunting areas. The abundant H₂O earlier this spring has filled the coulees and reservoirs to overflowing creating a prairie Mecca for migratory birds. Waterfowl numbers border on the legendary, creating the best opportunity to combine waterfowl and upland shooting we may see in a decade. For those of you interested in combining the two this fall, give us a call at 406 219 0441; we'll be waiting with calendar ready.

Among other minor changes including the addition of Satellite WIFI (for those like to stay connected while escaping it all), a new chef has joined us from the acclaimed restaurant Cafe Kandahar. Kyle has prepared a succulent new menu boasting some delectable fare and is working on a 4 course dinner option for those guests interested in an extra special evening with friends.

Showcasing the best of Montana's produce is extremely important to us and as we continue to grow our list of local producers, we are proud to include the best of Montana's microbreweries on our drinks menu this year. All partiality aside, these Montana microbrews are some of the best we've ever come across, anywhere.

We still have some availability for this fall at some incredible prices and so if you haven't already booked yourself a hunt give us a call and we'll book you in!
